Guide Star No. :	GSN 6296

Brief History

Tamas Society registered as Non profit seeking, Non Government Organization (NGO) established back in 2009.

Having seen the establishment year it might be looked upon as if it's pretty new organization but it had already started working collectively much before.

The main aim of the Society right from the beginning was Medical Health Check-up and Medical Awareness Camp in the extreme rural areas where Medical facilities are pretty much rare and barely available.

However we started our journey through a Mega Health Check Up camp at Bansberia New Boy's Club, Hooghly. It was basically a General Health Check up camp containing Blood Pressure, Blood Sugar, ECG, Hepatitis B vaccination, Eye Testing & Power assessment as well as find out Cataract patient and operate them successfully. We made sure that the entire program would be at completely FREE OF COST. And we just couldn't realize that it was going to be enormous response from the local public which prompted us to believe the necessity of Treatment to the Rural sector has been overlooked drastically.

Really the success made us feel proud as well as we were gaining confidence as a cohesive unit to do this type of camps more and more in the near future. Till our first camp, we have conducted various successful camps in and around West Bengal and the response from every corner have been top class. Getting boost up from the previous success we have diversified ourselves to another program called "Nutritious Meal Program" to the underprivileged children (4-14 yrs) of a extremely poor slum at Chetla Lock Gate. The idea was to provide nutritious meal such as breakfast, lunch and dinner from the centralized kitchen of our location, the food will have to be transported in steel container and will move towards slum everyday including Sunday and Public holidays. Right now 120 children are getting food on regular basis.

Operational Area

Name of State	Name of District	Name of Blocks / Municipality Corporation	Name of Villages / Wards Covered
West Bengal	Kolkata	Kolkata Municipal Corporation	Ward No. : 82 & 88

Organogram

Program

Education

Tamas Society works for providing education to needy children who are under difficult circumstances and school drop outs.

The students are child labour, children of poor parents, children inflicted and affected with HIV/AIDS, street and runaway children, children with rare disabilities, disaster struck children and slum children. Special emphasis is given on girl education and women education, so that they and their families get empowered.

Tamas Society's educational initiatives include Pre-school [3-6 yrs], Non Formal Education [6-14 yrs non-school going], Remedial Education [6-14 yrs school going] and Bridge Course [14-18 yrs drop-outs].

Tamas Society provide learning material , two sets of uniform, daily nutritious Tiffin, regular health check-ups and referrals and non formal education by qualified teachers and volunteers.

Other activities undertaken by Tamas Society are providing students access to libraries and computer education, training of the teachers to make the learning process effective, exposure visits to educational and recreational spaces and participation in co-curricular activities.

Livelihood Program

For underprivileged Youth, Students, House Wives & Working Professional

Tamas Society aims at creating a pool of young and independent people, from the marginalized section, through skill enhancement in tandem with market requirements.

It is an effort towards bridging the gap between demand and supply of skilled manpower in the fast emerging services and retail sectors of modern India.

The livelihood programs run by Tamas Society trains the urban & semi-urban underprivileged adolescent youth in English Proficiency, Basic Computer Education and Soft Skills in Leather Craft for enhancing their prospects of employment and future security.

Health Care

Tamas Society organize frequent health camps to meet the immediate health care needs of the marginalized community in remote rural areas and slums.

These health camps offer comprehensive health care services – curative, preventive, promotive and referral, to a large number of people in selected intervention areas.

Unlike a general curative health camp, these camps also build awareness regarding common ailments, family planning methods, nutrition and hygiene and sanitation.

These camps provide comprehensive health services free of cost in Multi-disciplinary themes which include gynecological, pediatric, ophthalmology and surgical services etc.

The uniqueness of the health camps organized by Tamas Society lies in its comprehensive approach where health promotion and prevention are given equal importance while curative care is administered.

Mile Stones

Society got Registered on October 2009

Society conducted 14 Mega Health & Eye Camps with free Spectacles distribution and 12 Cataract Operations in collaboration with B.P. Poddar Hospital & Lions Club in 2010
